The Violet IV, a two-story plan with 5 bedrooms, 4 baths, and a 3-car garage! The three-car garage gives you the extra bay most two-story plans this size don't offer — room for a truck, a workshop, or the storage that always runs short. The home carries 8' interior doors on the first floor and 8' patio doors out back, a taller proportion that makes the main level feel less boxed in and pulls more light through the rooms. Inside, vaulted ceilings lift the main living space. The Deluxe Kitchen is set up for people who cook: double ovens, a 5-burner gas cooktop, a pot filler over the range, granite counters, a single-bowl sink, and painted grey shaker cabinets, all finished with contemporary fixtures. Upgraded quartz carries through every bath. A mud room off the garage catches shoes, bags, and sports gear before any of it reaches the rest of the house. Outdoor living runs front to back with a covered porch and a covered patio, the wide 8' patio doors making the back of the house feel open to the yard. An exterior lighting system keeps the elevation lit after dark. Gutters and a full package of energy-saving components come standard, at no added cost, as they do in every build. Come see the Violet IV at the Bloomfield Homes model in Hampton Park.
