The Cypress floor plan offers 4 bedrooms, 2 full baths, and a 2-car garage in a one-story design on an interior lot in Ridge Ranch. A separate formal dining room gives the front of the plan a defined gathering space beyond the breakfast area, with a custom 8-foot front door introducing the foyer beside it. Laminate wood flooring connects the common areas, leading to a family room with a window seat and windows along the side and rear. Granite counters and pendant lighting give the Deluxe Kitchen its finish, with an island adding preparation space and under-cabinet lights illuminating the surrounding counters. A gas cooktop beneath a vented hood, an electric oven, and a built-in microwave handle the cooking setup. The walk-in pantry keeps supplies close without using the main work surfaces. Beside the kitchen, the breakfast area provides another place for meals, while the covered patio extends the gathering spaces toward the backyard. The primary suite includes a window seat and a walk-in closet, with dual sinks, quartz counters, a garden tub, and a separate shower in the bath. Along the rear hall, 3 secondary bedrooms share another full bath with granite counters and a tub and shower combination. 2 of these bedrooms have walk-in closets, adding storage beyond the primary suite. The laundry room sits near the garage entry, keeping household tasks close to everyday arrivals. A brick exterior, covered front porch, and exterior lighting complete the arrival, while a wood fence, landscaping, and a sprinkler system finish the yard.
