MODEL HOME • 10032 BLUE FOREST LN | ROSE II

The Rose II, a two-story plan with 5 bedrooms, 4 baths, a study, and a 2-car garage. A guest bedroom sits on the first floor, so a visitor or a family member has a place to stay without the stairs, and a study downstairs gives you a separate room to work. Three more bedrooms are upstairs, along with a game room and a separate media room. The home is on an interior lot in a community with a pool, a playground, and trails. A custom 8' front door opens the entry. The family room centers on an upgraded tile fireplace running to the ceiling. The Deluxe Kitchen has upgraded quartz counters, a gas cooktop, and an electric oven, with quartz carrying through the rest of the home. Laminate floors run through all the common areas. Window coverings are already hung. Out back, a covered patio opens onto the yard with a gas stub for the grill. Gutters, an exterior lighting system, and the energy-efficient features standard in every home Bloomfield Homes builds round it out. Come see the Rose II at the Bloomfield Homes model in Woodstone.
