This Carolina floor plan is a one-story home with 3 bedrooms, 2 baths, a private study, formal dining, media room, and a 2-car garage. The character of this home starts with its architecture. Brick and stone shape the front elevation, joined by a cedar garage door, large covered porch, and upgraded 8' entry door, all set on an oversized interior homesite. Inside, the circular foyer creates a memorable center point and gives the floor plan a sense of movement. Glass French doors frame the study nearby, while wood flooring stretches through the entry, halls, study, kitchen, and family room for a consistent finish across the main spaces. The formal dining room stands on its own instead of disappearing into the open layout, and beyond it, the family room draws attention to a natural gas fireplace with decorative tile, gas logs, and a cedar mantel. A window seat adds another built-in detail. The Deluxe Kitchen takes a cleaner, brighter direction with white quartz countertops, an upgraded backsplash, double ovens, a 5-burner gas cooktop, stainless steel apron-front farm sink, and a large island positioned toward the family room. Breakfast space sits just off the kitchen, with the covered back patio extending the footprint outdoors. The primary suite occupies its own side of the home and includes a bath finished with quartz surfaces, while 2 secondary bedrooms are arranged across the plan with a separate full bath. Patterned carpet brings contrast to the bedroom areas, and the media room is prewired for surround sound, adding another flexible space to the layout. The Oaks includes a community swimming pool, 6 parks, and a trail system. Tour the Carolina and explore the details for yourself at the Bloomfield Homes model in The Oaks!
