MODEL HOME • 1001 RAPTOR ROAD | VIOLET IV

Built-in dining seating brings personality to the Redbud II by Bloomfield Homes, a two-story design with 5 bedrooms, 3 full baths, and a 2-car garage in Eagle Glen. The open kitchen, dining area, and family room form one connected gathering space, with the island positioned to keep conversation going during meal prep. An L-shaped built-in seat defines the dining area without closing it off from the family room. A pantry keeps kitchen essentials close, and laminate wood flooring adds another design detail. The primary suite is set at the rear of the first floor, away from the front bedrooms. Its private bath features a double-sink vanity, a shower, and a walk-in closet. 3 additional bedrooms occupy separate areas of the main level, with a full bath near the front hall. The layout changes pace on the second floor, where a spacious game room sits beside bedroom 5 and another full bath. Movie nights, projects, or a second sitting area can have a space of their own. Storage is thoughtfully placed, including linen closets, a coat closet, and a dedicated laundry room near the garage entry. A built-in seat by the laundry offers a convenient landing spot for everyday items. The 8-foot front door and upgraded exterior lighting make an impression on arrival, while a covered rear patio extends the living space outdoors. An oversized homesite, landscaping, sprinkler system, and gutters round out the exterior. Visit Bloomfield Homes' Eagle Glen model to learn more about the Redbud II today!
