The Caraway brings 4 bedrooms, 3 full baths, and a 2-car garage together in a one-story design at 219 Seminole Trail. Two suites. Plenty of room to gather. A secondary bedroom with its own ensuite adds a distinct retreat near the front, while the primary suite occupies the rear with a window seat and a generous walk-in closet. Its bath pairs separate vanities and quartz counters with a garden tub, separate shower, and linen storage. A door from the primary closet into the laundry room makes the layout especially useful, and added base cabinets give that space a place to tuck away everyday supplies. The other two bedrooms share a full bath; the fourth bedroom replaces the plan's formal dining room. At the center, the kitchen, breakfast area, and family room connect in an open sweep, with upgraded wood-look laminate flooring tying the shared spaces together. Quartz kitchen counters, an island, and under-cabinet lighting bring polish to the prep area, while a walk-in pantry keeps storage close. A gas range and microwave complete the cooking setup. The family room delivers the drama: a floor-to-ceiling stone gas fireplace with a cedar mantel and raised hearth. Upgraded interior lighting carries the attention to detail throughout. Step outside to a covered patio and a landscaped interior lot finished with a wood fence and sprinkler system. Brick and stone, an 8' front door, a covered front porch, and upgraded exterior lighting give the arrival its own presence.
