Bloomfield Homes has a gorgeous Redbud II plan ready for you. The front porch and classic brick exterior sets the stage. It quickly opens into an expansive living and dining area lined with large picture windows! Durable tile flooring with a modern wood-grain finish grounds the space, creating warmth without the upkeep. The kitchen is integrated seamlessly, more a continuation of the living space than a separate zone. The long island is topped with natural granite, paired with stainless steel appliances, and modern flat-panel cabinetry that gives everything a polished edge. The primary suite is positioned quietly downstairs, designed as a retreat with an ensuite that features a glass shower, garden tub, and walk-in closet shaped for simplicity and ease. 2 additional bedrooms share this level, tucked neatly off a side hall. A game room upstairs extends the living experience into something more playful and versatile, balanced by a bedroom and bath that make it feel like its own private space. The covered patio creates a pause between indoors and out, shaded for hot afternoons yet open to the evening breeze. Residents love Arrowbrooke's resort-style amenities that make every day an adventure, and schools are just around the corner! Come take a tour to see how Bloomfield can get you into your dream home today!
