The Spring Cress II offers 5 bedrooms, 4 full baths, and a 3-car garage configuration that pairs a 2-car garage with a separate mini garage. That extra bay replaces the formal dining room, giving this version of the plan a distinctly different front elevation and useful space for storage or hobbies. Brick and stone, wood garage doors, and an upgraded 8-foot front door set the exterior apart. The family room makes its statement with raised ceilings and a stacked-stone fireplace extending to the ceiling, complete with direct-vent gas logs. Engineered hardwood flooring and 8-foot first-floor interior doors carry that sense of scale through the home. A Deluxe Kitchen with Professional Series appliances brings double electric convection ovens, a gas cooktop, and a farm sink to the daily routine. Quartz countertops meet soft-close cabinet doors and drawers, with pendant and under-cabinet lighting adding layers of light. Breakfast overlooks the rear yard and connects to the covered patio, where a gas stub is ready for a grill. The primary suite includes a window seat, dual sinks, a separate shower, and a deck-mounted jetted tub. A second main-floor bedroom and full bath sit near the laundry, while the study remains a separate space off the foyer. The second floor offers 3 more bedrooms, 2 full baths, and a game room with an adjoining open media area. An overlook connects this level to the family room below. Upgraded carpet and tile, including accent and mosaic selections, add detail throughout. Landscaping, sprinklers, and a wood fence finish the yard.
