A well-planned one-story layout, the Jasmine in Addison Hills offers 4 bedrooms, 3 baths, and a 2-car garage with space where it matters most. An upgraded 8-foot front door welcomes you inside, where RevWood flooring runs throughout the main living areas, providing durability with the look of natural wood. The family room sits at the center of the home and connects easily to the kitchen and breakfast area, creating an open space that feels bright and inviting, thanks to large windows overlooking the backyard. The Deluxe Kitchen features quartz countertops, built-in stainless steel appliances, a pot filler, and plenty of prep space for cooking or entertaining. The upgraded tile-to-ceiling fireplace in the family room adds a striking focal point and brings extra character to the main living space. The primary suite is positioned toward the back of the home and includes a spacious bedroom and a bath with dual sinks, linen closet, soaking tub, separate shower, and a HUGE walk-in closet. 3 additional bedrooms and 2 full baths are located closer to the front of the home, offering flexibility for guests, family members, or a home office. A mud room just off the garage helps keep everyday items organized, while a tankless water heater provides modern efficiency and reliable hot water. Outside, the covered patio offers a comfortable place to relax or gather with friends, and full rain gutters add long-term protection to the home. Life in Addison Hills includes access to a playground, walking trails, and a peaceful neighborhood pond. Visit Bloomfield Homes to learn more about the Jasmine in Addison Hills and see why this one-story floor plan continues to be a favorite!
