The Jasmine brings 4 bedrooms, 3 full baths and a 2-car garage together in a one-story design that gives the primary suite its own side of the home in Addison Hills. The added third bath is a practical upgrade, giving the secondary bedrooms another full bathroom beyond the one near the front entry. A long foyer leads to the family room, where a stone fireplace rises to the ceiling with a cedar mantel adding contrast. Laminate flooring extends through the home, and upgraded tile adds detail in the baths. The kitchen runs alongside the family room so conversation can continue from the island to the sofa. This Deluxe Kitchen earns its name with quartz countertops, a gas cooktop, double electric ovens and a pot filler. Bake dinner and dessert at different temperatures, or keep several dishes moving when the menu gets ambitious. The island provides a central prep surface, with a walk-in pantry nearby for groceries and countertop appliances. Windows brighten the breakfast area at the rear, and a door opens to the covered patio with a gas drop for your outdoor cooking setup. The primary bedroom sits at the back of the home, separated from the secondary bedrooms by the shared living spaces. Double doors open to a bath with dual sinks, quartz surfaces, a soaking tub and separate shower. A walk-in closet completes the suite. Three secondary bedrooms line the opposite side of the plan. The laundry room connects the interior to the garage. An upgraded 8-foot front door and exterior lighting add presence at the entry of this interior homesite.
