Space takes the lead in Bloomfield Homes' Spring Cress II, a two-story plan with 5 bedrooms, 4 full baths, a study, game room, media room, formal dining room, and a 2-car garage. This home gives each part of the floor plan its own purpose instead of simply adding more rooms. The upgraded 8' front door opens to a foyer with the study positioned nearby, while the main living area unfolds beneath a soaring ceiling for an immediate change in scale. A floor-to-ceiling tile fireplace with gas starter anchors the family room, and the open layout keeps it connected to the Deluxe Kitchen and breakfast area. The kitchen brings quartz countertops, upgraded painted cabinetry, gas cooking, and a large island into the center of everyday life. Laminate flooring carries through key shared spaces, while tile finishes the baths and other practical areas. The primary suite stays downstairs with a window seat, generous bath, and walk-in closet, while additional first-floor bedroom space gives the plan flexibility without sending everyone upstairs. Even the utility room gets extra attention with upper cabinets and a mud bench near the garage, creating a useful landing zone. Upstairs, the layout opens again with a large game room surrounded by secondary bedrooms, additional full baths, and dedicated media space that gives the second level a personality of its own. Quartz counters continue throughout the home, joined by a tankless water heater and upgraded painted cabinetry for a consistent finish. Out back, the covered patio includes a gas stub for grilling and fan kit installed while exterior lighting adds another polished detail after dark. Set on an interior homesite in Addison Hills, this Spring Cress II is built for buyers who want real room to spread out without sacrificing defined spaces. Come see it at the Bloomfield Homes model in Addison Hills!
