Move-In Ready

**Contact Community Manager for incentives!** Bloomfield's Jasmine plan introduces a fresh take on single-level living with natural flow, 4 bedrooms, and 2 baths. A brick façade in soft neutrals gives the home depth and dimension, while the covered front porch and 2-car garage invite you in. Soft daylight moves across laminate wood floors and crisp white walls, highlighting the open living area and its clean sightlines through to the backyard. The kitchen feels both functional and refined, with painted cabinetry, quartz counters that catch the light, a broad island for prep or gathering, a frosted door on the walk-in pantry, and stainless gas appliances that balance utility with style. Every detail feels considered—from the tall ceilings that create volume to the mudroom tucked near the garage that keeps daily life organized. The primary suite sits quietly at the back, where large windows frame backyard views and a spacious bath offers a garden tub, glass-enclosed shower, and walk-in closet with generous storage. 3 additional bedrooms share a full bath, each with its own sense of privacy. Beyond the main living area, a covered patio opens to a fenced, fully sodded yard already equipped with irrigation—turnkey and ready to enjoy. Set within East Oak Creek, where mature trees and open green space surround a community park and playground, this newly built Jasmine captures the light, balance, and livability that define Bloomfield's approach to home design. Visit Bloomfield at East Oak Creek to discover this hidden gem!
