Welcome to Bloomfield's Cypress I, a thoughtfully designed single-story home offering 4 bedrooms and 2 baths with abundant upgrades throughout. From the moment you arrive, the upgraded brick façade, bay window, and 8' front door create a warm and elevated curb appeal. Inside, you'll find gorgeous Laminate Wood flooring throughout, complementing an open-concept layout that centers around a large Family Room and spacious Breakfast Nook, both anchored by a light-filled atmosphere and access to the huge covered patio. The heart of the home is the gourmet kitchen, complete with wood cabinet finishes, an island layout, and stainless steel appliances. The Formal Dining room at the front of the home offers flexibility as an optional Study, while Bedrooms 2–4 are grouped in a private wing for added separation. The Primary Suite is tucked away for ultimate privacy and includes a walk-in closet, dual sinks, and a garden tub. Enjoy the best of indoor and outdoor living on an interior corner lot with no neighbors directly behind or on one side, providing a rare level of privacy. Whether you're entertaining on the covered patio or relaxing indoors, the Cypress I delivers the space, style, and features today's buyers are looking for. Schedule your tour today!
