The Caraway floor plan offers 4 bedrooms, 3 full baths, and a 2-car garage in a one-story design on an oversized interior greenbelt lot in Homestead at Daniel Farms. The greenbelt setting gives the covered back patio a sense of separation, while the interior balances open gathering spaces with bedrooms in distinct areas. A secondary suite near the front has its own bath and walk-in closet. Across the foyer, 2 more bedrooms share another full bath, with Bedroom 4 replacing the formal dining room. The primary suite occupies the rear of the home, where separate vanities, a soaking tub, and a separate shower create a well-defined bath layout. Its walk-in closet connects directly to the laundry room. A useful shortcut! In the family room, a stone fireplace rises to a cedar mantel, with gas logs adding a ready-made focal point. Upgraded wood flooring brings texture to the interior, and the open connection to the kitchen keeps the shared spaces feeling cohesive. Quartz countertops and an island anchor the Deluxe Kitchen, paired with gas cooking and double electric ovens featuring Air Fry mode. The breakfast area sits beside rear windows and the patio door, bringing dining and outdoor seating together without a separate formal room. Window seats and installed window coverings add finishing touches, while a mud room supports the everyday routine. At the front, a covered porch and upgraded 8-foot door introduce the home.
