This Hawthorne II floor plan offers 4 bedrooms, 3 full baths, and a 2-car garage in a two-story design on an interior lot adjacent to greenbelt with park views in Devonshire. The primary suite gives this layout a distinct advantage: a separate sitting area adds room for a reading chair or another furniture arrangement, while a window seat brings character to the bedroom. Its bath pairs quartz countertops and dual sinks with an enlarged shower in place of the tub, and a walk-in closet keeps storage close. Near the front, double doors enclose a study where formal dining would otherwise sit. The kitchen and breakfast area handle the gathering, with an island, quartz counters, and a walk-in pantry defining the Deluxe Kitchen. A gas cooktop, vent hood, and built-in microwave complete the cooking space. From there, the family room opens beneath a raised ceiling, with a window seat and rear windows drawing attention toward the covered patio. Tile flooring adds another practical finish, and window coverings are included. The bedroom arrangement keeps 3 bedrooms downstairs, with 2 secondary rooms sharing a full bath and a nearby tech center adding a spot for a computer or household planning. Upstairs is a change of scene. A game room, Bedroom 4, and another full bath give this level its own purpose. Brick and stone frame the exterior, complemented by wood garage doors, a covered porch, and an upgraded 8-foot front door. A wood fence, landscaping, sprinklers, and gutters finish the setting.
