The Rose II by Bloomfield has room for everything and everyone, with 5 bedrooms, 4 full baths, and living spaces that work as beautifully for everyday routines as they do for celebrations. The exterior shows off timeless curb appeal with brick, stone, and an inviting front porch. The foyer opens to a dramatic two-story Family Room where tall windows flood the space with light and a stone fireplace stretches to the ceiling. The Kitchen connects seamlessly, designed with custom cabinetry, granite counters, a white herringbone backsplash, and built-in stainless appliances. The oversized island isn't just for cooking—it's a hub for homework, conversations, or late-night snacks. Downstairs you'll find the private Primary Suite with an enlarged shower and dual vanities, plus another bedroom that's perfect for guests, a nursery, or a home office. Upstairs adds even more flexibility with a large Game Room and a separate Media Room, giving you space for movie nights, football watch parties, or kids' hangouts. Wood floors run throughout the main level, and practical touches like window coverings, gutters, and a gas line on the covered patio mean you can move in without the extra to-do list. The backyard is wide and ready to use—play, grill, relax, it's yours to make. With its smart layout, designer finishes, and move-in readiness, this Rose II at Copper Creek is ready to welcome its first homeowners.
