The Gardenia floor plan spreads 5 bedrooms and 4 full baths across a two-story layout with a 2-car garage on an interior homesite in Hulen Trails. Two bedrooms occupy the main floor, while 3 more surround an upper-level game room, giving the home distinct places to gather and unwind. An upgraded 8-foot front door with 5 glass panels brightens the arrival, and a built-in seat near the foyer offers a spot to pause and set things down. Laminate flooring connects the main living areas, where the family room opens directly to the kitchen and breakfast area. Two pendant lights highlight the island, with quartz countertops providing prep space and a pull-out trash cabinet keeping a daily necessity neatly contained. A gas cooktop and gas oven support the cooking setup, and a walk-in pantry provides storage beyond the cabinets. The breakfast area includes a window seat and access to the extended rear patio. Bring the table outdoors when dinner calls for a change of scenery. The main-floor primary suite sits at the rear and includes an upgraded Deluxe Bath with dual sinks, a soaking tub, separate shower and a generous walk-in closet. The second main-floor bedroom is near the entry with a full bath nearby. The laundry room sits between the kitchen and bedroom hall for convenient daily access. The upper level adds 3 bedrooms with walk-in closets and 2 full baths, including one connected to a bedroom. The game room provides a separate place for a second television, hobbies or a game table.
