Model Home For Sale

FORMER MODEL HOME by Bloomfield Homes - NEVER LIVED IN and PROFESSIONALLY DESIGNED! Modern two-story with 5 bedrooms and 3 baths, the Redbud II plan is no cookie-cutter builder model! From the plentiful and unique window arrangements to the built-in seating and wall of flushed flat panel cabinetry in the kitchen, buyers love using the contemporary canvas to express their style. As a former model home, you get a head start on decorating thanks to custom painted accent walls, custom bench seat cushions, and coordinated window treatments! All pairing perfectly with the curated material selections including RevWood flooring in common areas, cabinets in a complimentary stain with long pulls included, large body tile in baths, mosaic kitchen backsplash tile, and upgraded plush carpet. The Primary Suite is situated privately downstairs with a walk-in closet and ensuite bath, as well as 3 more secondary bedrooms, a full bath, and a dedicated laundry room. Upstairs has a roomy game room, Bedroom 5, and Bath 3 - great if you require a private bedroom or secondary living space. The home's exterior adds to the charm, with gorgeous garden beds and landscaping that has been professionally maintained since the beginning! There's uplighting added and a covered front porch to place seasonal decor on, and a covered patio in the backyard with flood lights too for outdoor hangouts year-round! Additional highlights include all gas cooking on stainless steel appliances (most included in sale), a large shower in the primary bath, walk-in pantry storage, a mud bench across from the garage interior entry door for a shoe drop off, and a full 2-car garage. Location is a block away from the community pool! Come by during business hours to see this home for yourself and stop by our office next door to get more information. *Available to close 6-8 weeks after contract signed.*
