The Spring Cress II, a two-story plan with 5 bedrooms, 4 baths, a study, and a 2-car garage. The home sits on an oversized interior lot. A brick front porch sits beneath an upgraded 8' front door at the entry. Just inside, the study sits behind glass doors, lit by recessed cans, with a formal dining room nearby lit the same way. The kitchen is where the upgrades stack up: the Deluxe layout carries upgraded cabinets, upgraded countertops, an upgraded backsplash, under-cabinet lighting along the run, and a finished raised panel on the back of the island so it looks built rather than boxed. Those upgraded counters carry through to the baths. Wood-look laminate floors run through the main areas of the first floor. A media room sits behind its own doors, and an iron railing overlooks the family room from above. Window coverings and 2-inch faux wood blinds are already hung throughout, and window seats are built in, adding a place to sit with storage underneath. A mud room off the garage catches shoes, bags, and sports gear before any of it reaches the rest of the house. Outdoor living runs front to back with a covered porch and an extended covered patio, the patio giving you more room under cover than the standard footprint and plumbed with a gas stub so the grill connects directly. Gutters and a full package of energy-saving components come standard, at no added cost, as they do in every build. Come see the Spring Cress II at the Bloomfield Homes model in Wildflower Ranch.
