The open kitchen and family room form the heart of the home - perfect for daily gatherings or entertaining guests. A private study near the entry makes working from home effortless, while the formal dining room can be built as a first-floor media room for added versatility.

Upstairs, a spacious game room connects the secondary bedrooms and complements a dedicated media room, which can also be built as an optional bedroom - with or without additional closet space. One of the luxurious homesites features a private entrance to the media room, creating a versatile setup for guests, multigenerational living, or a quiet retreat. The primary suite is a true retreat, featuring a tray ceiling, dual vanities, a separate soaking tub, and two walk-in closets - a thoughtful design for extended family or long-term guests.
