MODEL HOME • 12524 YELLOWSTONE STREET | PRIMROSE VI

The Primrose FE VI floor plan offers 5 bedrooms, 4 full baths, 1 half bath, and a 3-car garage in a two-story design on a half-acre lot in Coyote Crossing. A rotunda foyer introduces the layout, with a study behind double doors near the entry and formal dining farther into the home. The family room opens beneath a vaulted ceiling, anchored by sawn stone extending to the ceiling around a fireplace with a cedar mantel, hearth, and gas starter. Laminate flooring connects the shared spaces, while modern stair railing adds architectural detail. Green Shaker cabinets give the Deluxe Kitchen its color, paired with quartz countertops, black hardware, and a white porcelain farmhouse sink. An electric cooktop and electric oven support the cooking setup, while the island connects food prep with conversation in the breakfast area. Patio doors open to covered outdoor seating with the half-acre setting beyond. The primary suite sits at the rear of the first floor with a walk-in closet and a bath featuring separate vanities, a garden tub, and a separate shower. Beige Shaker cabinets and upgraded counters distinguish this space from the granite counters and green cabinetry in the secondary baths. Also downstairs, 2 secondary bedrooms share a full bath, with a powder bath near the laundry room. Upstairs changes the pace: a game room, separate media room, and 2 bedrooms with walk-in closets and 2 full baths. Brick and sawn stone, an upgraded 8-foot front door, and cedar garage doors complete the exterior, while 2-inch blinds are included throughout.
