MODEL HOME • 12524 YELLOWSTONE STREET | PRIMROSE VI

The Primrose FE is one of our most popular single-story plans, with 3 bedrooms, 2.5 baths, a study, and a 3-car garage! The home sits on an oversized half-acre lot — a genuinely rare amount of land on new construction — and the entry opens into the plan's rotunda, a rounded, dramatic first impression the moment you step inside. Everything lives on one level here, with 8' front and interior doors carrying a taller, more finished proportion through the home. Just off the entry, the study gives you a separate room to work on the main floor, and a formal dining room sits nearby for sit-down meals. The family room centers on a floor-to-ceiling stone fireplace that reaches the 18-foot ceiling, and large picture windows pull extra light into the plan. The all-electric Deluxe Kitchen carries double ovens, upgraded quartz counters, custom Shaker cabinets, and a white porcelain farm sink. Extensive laminate flooring runs through the main areas. The primary suite sits apart from the secondary bedrooms and includes a walk-in closet plus a bath with a garden tub and separate shower. A mud room off the garage catches shoes and bags before they reach the rest of the house, and the 3-car garage handles vehicles, storage, or a workshop. Outdoor living includes a covered patio out back. Gutters and a full package of energy-saving components come standard, at no added cost, the same as every home Bloomfield Homes builds. Contact Bloomfield Homes, or stop by the model at Coyote Crossing, to tour the Primrose FE and see what's available.
