MODEL HOME • 12524 YELLOWSTONE STREET | PRIMROSE VI

The Primrose V is a two-story plan with 4 bedrooms, 3.5 baths, a study, a 3-car garage on an oversized interior lot. The entry opens into the plan's rotunda — a rounded, dramatic first impression the moment you step inside. Most of the living is on the main floor: a study and a formal dining room sit downstairs alongside the primary suite, with 8' interior doors running through the first floor for a taller, more finished proportion. Vaulted ceilings lift the main living space, and the family room centers on a floor-to-ceiling stone fireplace. The all-electric Deluxe Kitchen carries double ovens, painted Shaker cabinets, an island, and Level 5 quartz countertops! High-level laminate runs through the main areas with upgraded carpet in the bedrooms. Upstairs, a game room and a dedicated media room give the household two separate living spaces, alongside a bedroom finished with its own walk-in closet. Window seats are built in through the home, adding storage and a place to sit, and a mud room off the garage catches shoes and bags before they reach the rest of the house. Outdoor living includes a covered patio out back. The 3-car garage handles vehicles, storage, or a workshop. Gutters and a full package of energy-saving components come standard, at no added cost, the same as every home Bloomfield Homes builds. Visit the Bloomfield Homes model at Coyote Crossing to walk the Primrose V in person, or call to learn more.
