Located on a landscaped lot in Star Ranch, the Camellia offers 3 bedrooms, 2 full baths, and a 2-car garage in a one-story layout. Outdoor seating gets extra room here: a covered patio pairs with an added 10-by-15-foot concrete slab, creating separate options for shaded dining and an open-air seating arrangement. The patio connects directly to the dining area, where windows on 2 sides frame a space that feels connected to the yard. Inside, the kitchen and family room share an open layout, with the island positioned to keep food prep part of the conversation. The sink and dishwasher sit at the island, while a pantry provides a dedicated place for groceries and kitchen storage. A microwave and disposal add everyday function. The family room has a broad rear window and room to arrange seating around the shared living space. At the back of the home, the primary suite sits apart from the secondary bedrooms, with a bath upgraded to dual sinks, a shower, and a walk-in closet. The 2 additional bedrooms occupy the front side of the layout, each with its own closet and a full bath conveniently positioned between them. A hallway gives these rooms a defined connection to the main living area. The laundry room sits between the garage and interior hall, keeping laundry and garage access together without opening directly into the family room. An upgraded 8-foot front door gives the covered entry a stronger presence, and landscaping with a sprinkler system completes the outdoor setting. Visit Bloomfield Homes' Star Ranch model today!
