Former Bloomfield Model Home This handsome stone & brick 1.5-story shines bright on its street with professional landscaping and a massive front porch. You have to see the great backyard on this homesite close to the community entrance! The Dogwood III plan is loved for its open-concept living space with a vaulted ceiling, and the designer-selected finishes enhance these features even more... wood tile floors, extensive stained cabinetry, and granite counters at kitchen & the game room tech center. Entertain in the Formal Dining Room or on the Covered Rear Patio! Pops of cerulean break up the neutral tones, while custom window treatments & window seat cushions complement the accent paint walls (sold as is; included in sale of the home). Kitchen flaunts a large center island, SS appliances, mosaic backsplash, and an extra wall of cabinets added! Primary Suite + 2 secondary bedrooms on the first floor, with Bed 4 & Bath 3 privately located upstairs off the Game Room. Come tour today!
