Our Dogwood III shows off the kind of thoughtful design that feels easy to live in from day one. A brick-and-stone façade with stained shutters and a large front porch gives the home style before you even come in. Natural light fills the open living area, where wide-plank laminate wood floors and a stone-to-ceiling fireplace with a cedar mantel set the tone for a grounded atmosphere. The kitchen brings a clean, modern edge with white cabinets, quartz counters, stainless steel appliances, and under-cabinet lighting that gives the workspace a subtle glow. A built-in buffet along one wall adds extra storage and display space while giving the kitchen a custom touch. At the front, a flex room with glass French doors offers easy versatility—perfect as a study, dining room, or creative space. The main level also includes 3 bedrooms, with the primary suite tucked away for privacy and finished with dual sinks, a soaking tub, separate shower, and walk-in closet. Upstairs expands the plan with a spacious game room, a fourth bedroom, and full bath, giving the home even more flexibility. Out back, a covered patio overlooks a fully fenced yard with fresh sod and irrigation already in place. Located in the gated Wildcat Ridge community, residents enjoy a pool, park, and walking trails in a quiet setting that still keeps you close to schools and commuter routes. Newly completed and ready now, this home captures the balance of craftsmanship and comfort that defines Bloomfield - visit us today!
