Welcome to the Willow II by Bloomfield Homes! This bright and efficient two-story home features 4 bedrooms, 3 baths, and a fully electric kitchen that flows into the Breakfast and Living areas, creating an open and inviting space. With a charming all-brick façade, covered front porch, and extended flat-work patio in the rear, this home offers curb appeal and an excellent backyard setting. Inside, you'll find a dedicated Study off the entry—ideal for working from home or managing daily tasks—replacing the traditional formal dining space. The Primary Suite and two secondary bedrooms are conveniently located downstairs, with a bay window in the Primary Suite bringing in natural light and added elegance. The ensuite bath features double sinks and upgraded finishes like Quartz and Granite countertops. Upstairs, you'll find a Game Room and a fourth bedroom with a full bath, perfect for guest privacy. The kitchen is equipped with a large center island, upgraded Quartz surfaces, a cabinet trash bin pull-out, and all-electric stainless steel appliances, offering both beauty and function. Additional features include a covered back patio with additional flatwork extension, mud room, and energy-efficient touches. Call or stop by Bloomfield Homes at the Georgetown model in Kings Fort for more details and to schedule your tour!
