The two-story layout of the Violet II offers 4 bedrooms, 3 full baths, and a deep 2-car garage on an oversized corner homesite in Bear Creek at Grand Heritage. Laminate wood and tile flooring add texture to the interior. The kitchen opens to the family room and dining area, centering preparation around an island with granite counters, gas cooking, and an electric oven. A pantry keeps everyday supplies close, while a window seat in the dining area adds a spot beyond the table. The covered patio connects to the dining area and primary bedroom, extending the home's shared spaces outdoors. Set toward the back of the first floor, the primary suite includes a walk-in closet and bath with dual sinks, a garden tub, and a separate shower. Near the foyer, a secondary bedroom and full bath replace the study and powder-room arrangement, giving overnight stays a defined setting downstairs. Upstairs has a different agenda: a game room for casual gathering, a separate media room for movies, and a tech center for homework or projects. The remaining 2 bedrooms share another full bath with dual sinks. The laundry room sits near the garage entry, where the mud room helps manage daily drop-offs and the deeper garage adds useful room beyond parking. An upgraded 8' front door, covered porch, and gutters complete the exterior details. Visit Bloomfield Homes' Bear Creek model to explore this Violet II today!
