The Lily IV offers 5 bedrooms, 4 full baths, 1 half bath, and a swing 3-car garage in a two-story design at Somerset. Upstairs earns its own spotlight. A spacious game room opens along the railing overlooking the family room, while doors enclose the media room for a separate entertainment space. A second suite has a walk-in closet and private bath, with 2 more bedrooms sharing another full bath. Downstairs, the rear primary suite adds a window seat and large walk-in closet, plus separate vanities, quartz counters, a garden tub, and a separate shower. Another bedroom and full bath occupy the front side of the plan, and the study sits behind glass French doors off the foyer. Wood flooring and 8' first-floor interior doors bring a consistent sense of scale to the main spaces. The vaulted family room makes a dramatic connection between levels, anchored by a tile-to-ceiling fireplace. The Deluxe Kitchen answers with illuminated cabinets reaching the ceiling, quartz counters, and double ovens. A gas cooktop, large island, breakfast bar, and walk-in pantry keep the layout functional. The breakfast area connects the kitchen to the covered patio. A custom mud bench organizes the garage entry, and blinds are included. Outside, wood garage doors and a covered front porch frame the arrival. The oversized corner homesite faces a pond and sits beside a greenbelt, with landscaping, a sprinkler system, and a wood-fenced yard completing the setting.
