\$30K in closing cost assistance and rate buydown! Bloomfield's Primrose FE is a single-story stunner that blends elegance with everyday function, offering over 2,700 square feet of intentional living space with premium upgrades throughout. From the curb, the brick-and-stone façade paired with a 70-foot homesite and 3-car garage makes an immediate impression. Step through the 8' front door into a home defined by handscraped hardwood floors in common areas, soaring ceilings, and sunlit spaces. At the heart is a spacious Family Room that flows into the Deluxe Kitchen, featuring granite countertops, gas cooking, and custom cabinetry with plenty of storage. A central island and breakfast nook make it perfect for both quick mornings and big gatherings. The private Primary Suite is tucked away with a spa-like bath and large walk-in closet, while Bedrooms 2 and 3 share a full bath in their own wing. A dedicated Study sits at the front, complete with its own closet for versatility, and a Formal Dining Room adds a touch of sophistication for holidays or special dinners. Details like upgraded tile in the primary bath, a tankless water heater, and window coverings throughout enhance convenience and comfort. Outdoors, a covered back patio extends your living space, perfect for entertaining or simply enjoying the Texas evenings. This Primrose FE was designed with flexibility, function, and timeless style in mind—an elevated single-story that checks all the boxes. Call or visit Bloomfield today to learn more!
