**.28 Acre Homesite!** As one of Bloomfield's most loved single stories, the Primrose is a widespread plan with soaring ceilings & extensive windows through an open layout with flexible rooms. The eye-catching front elevation features stone details, cedar accents & high-pitched gables. This version has a side-entry garage with 3 spaces, including a separate third bay ideal for a gym, workshop, or extra storage! Oversized homesite with large yards measuring OVER a QUARTER-ACRE so you can build a pool, plus we extended the covered patio for maximum comfort. This home is decked out with luxurious finishes inside & out: exquisite hardwood floors in common areas, exotic granite countertops, a 17' stone fireplace with gas logs, stained wood garage doors, and 2" faux wood blinds! Study, Formal Dining, and Mud Room all add value. Find double ovens, a gas range, pot & pan drawers, a wood vent hood, and upgraded cabinetry around the island kitchen.
