Two-story home offering 5 bedrooms, 3.5 baths, and a 2-car garage. The foyer opens wide and immediately defines the home's structure, with a front study enclosed by dual doors and a staircase finished with horizontal spindles that keeps the entry visually open and lightly-stained accents. Engineered wood flooring runs through the main living areas and leads into the family room, where a tile-to-ceiling fireplace anchors the space without breaking the open connection to the kitchen and breakfast area. The kitchen is centered around a large island and finished with white cabinetry, quartz countertops, pot and pan drawers, a wood vent hood, and a walk-in pantry that keeps storage tucked away. The primary suite stays on the main level and sits away from high-traffic areas, offering a spacious bedroom, a garden bath with dual sinks, a soaking tub, a separate shower, and a walk-in closet sized for daily use. Upstairs, the layout opens into a game room that connects to a tech center and an upstairs laundry room, while secondary bedrooms are well sized and include a Jack and Jill bath arrangement. Practical features are built into the plan, including a mud room with a drip-dry area, a tankless water heater, gutters, and an extended covered patio overlooking the interior lot. The stone-and-brick exterior, fully bricked covered porch, and upgraded 8' glass front door complete the home's exterior presence, all set within Painted Tree and its community amenities.
