Under Contract

Discover the height of luxury living in this stunning Primrose VI floor, thoughtfully crafted with an impressive collection of upgrades and finishes. This two-story home includes 5 bedrooms and 4.5 baths with a layout that balances privacy and shared spaces. The chef's dream deluxe kitchen shapes the main living area, showcasing an oversized island, granite countertops, an upgraded backsplash, and under-cabinet lighting, all paired with a high-end built-in stainless steel appliance package including a double oven. A striking rotunda-style entry introduces the open dining space and family room, where a floor-to-ceiling stone fireplace with a cedar mantel adds definition. Glass French doors enclose the study, offering a quiet, flexible space near the front of the home. The main level hosts the expansive primary suite, designed as a private retreat with an oversized walk-in closet, quartz countertops, dual vanities, a garden tub, and a separate shower. Also on the first floor are 2 secondary bedrooms supported by a full bath. The second floor is dedicated to entertainment, featuring a game room, a media room with surround sound, and 2 additional bedrooms, each with its own walk-in closet and ensuite bath. Horizontal railing along the staircase and game room overlook adds a clean, modern touch. Outside, a brick and stone exterior accented with dark cedar details is complemented by a covered front porch, a covered back patio overlooking the large backyard, and a 3 car garage with cedar doors. Set within the Villages of Walnut Grove, this home is surrounded by a community that blends small-town Midlothian charm with easy access to parks, trails, local dining, and Midlothian ISD. Visit the Bloomfield Homes model to learn more about the Primrose VI and experience this home in person.
