NEW! NEVER LIVED IN. Bloomfield Homes has built the Spring Cress II, a two-story plan with 5 bedrooms, 4 baths, a study, and a 2-car garage. The home sits on an interior lot with walking trails right in the neighborhood, quietly set back from the through traffic, and cedar garage doors and a custom 8' front door give the elevation real presence from the curb. Inside, the family room is anchored by a fireplace that makes a natural focal point for the main living space. The Deluxe Kitchen is the showpiece here — an all-electric setup with double ovens, a quartz island built for prep and gathering alike, and cabinets that run all the way to the ceiling, finished with glass fronts and lighting that turn everyday storage into something worth looking at. Quartz carries the upgraded finish through to the primary bath. A dedicated study offers a quiet workspace on the main level, and window coverings and blinds are already in place, with window seats tucked throughout adding storage and a spot to sit. Upstairs, three bedrooms each have their own walk-in closet, alongside a game room and a separate media room — one for the pool table and the noise, the other set up for movie nights. Out back, a covered patio extends the living space into the yard, while a covered porch out front completes the indoor-outdoor flow. Gutters and the energy-efficient features standard in every Bloomfield Home round it out. Come see the Spring Cress II at Bloomfield's model in Villages of Walnut Grove.
