The Cypress II offers 4 bedrooms, 3 full baths, and a 2-car garage in a two-story design on an interior lot backing to an open field in Chaparral Park. The primary suite gets more than a bedroom: a dedicated sitting area adds room for a reading chair or desk, alongside a window seat and walk-in closet. Its bath pairs dual sinks and upgraded granite with a garden tub, separate shower, and distinctive pebble tile around the tub. Across the main floor, 2 secondary bedrooms share a full bath, while the front study has glass French doors for a defined workspace. Laminate wood flooring connects the study, entry, kitchen, breakfast area, and family room, giving the shared spaces a continuous finish. Brown Shaker cabinets ground the kitchen, where upgraded granite counters meet an arabesque tile backsplash. An island provides prep space, with a gas range, single-bowl stainless sink, walk-in pantry, and under-cabinet lighting supporting everyday use. The breakfast area includes a window seat and opens directly to the family room. Upstairs offers a change of pace: a game room, fourth bedroom, and full bath with a shower replacing the tub create a separate zone for recreation. Outside, brick, front uplights, and an 8-foot wood-and-glass door frame the covered entry. A covered back patio looks toward the field, with cedar fencing, landscaping, and sprinklers completing the yard. Full gutters, blinds, and a 50-amp garage outlet add practical value.
