Open-concept home that faces East, offering a gorgeous vaulted family room flowing into an island kitchen and buffet dining nook, 3 bedrooms on the first level, and a second floor with a sizeable game room and bed-bath combo. Classy, timeless materials and color selections including stained cabinetry, white granite and quartz countertops, sandy RevWood floors, and a contemporary fixtures package in brushed nickel. A bit of fun and on-trend looks brought in by patterned laundry room floor tile and accent tile on shower walls! The kitchen features Level 4 granite surfaces, along with upgraded stainless steel appliances built flush into the cabinetry, a wood vent hood, pendant lights, deep cookware drawers, undercabinet lighting, a pull-out trash drawer, upgraded Delta faucet at a single bowl sink, and artisan-look Zellige tile backsplash. A generous primary suite sits behind double doors, holding space for a seating area and king-sized bed! The closet sits separate from the ensuite bath, a 5-piece arrangement with dual sink vanity, water closet, garden tub and glass-enclosed shower. 2 more bedrooms are found downstairs near the stairs in the home's rear sharing a full bath and tech center in the hall just outside each door. The game room is a bright and flexible retreat you can shape to your needs, and it's accompanying bedroom and full bath make a great guest room option! A dedicated study is downstairs off the foyer through glass French doors, the covered rear patio has a gas drop already installed for your grill, blinds and gutters included, EV charging plug prewired in garage, and much more!
