Move-In Ready

Our Caraway plan offers 4 bedrooms, 3 baths, and a deep 2-car garage in a single-story layout wrapped in upgraded brick and stone with a cedar garage door and an 8' front entry. The interior opens with RevWood flooring that runs through main gathering spaces, creating a warm connection from front to back, and 8' doors continue in all rooms. The kitchen is designed as a true centerpiece, shaped by an oversized island with a raised panel back and surrounded by Level 4 granite countertops, a built-in appliance package with gas cooktop, an single-bowl stainless sink with Delta faucet, trash pull-out drawer, 3 pendant lights, and lighting tucked beneath the cabinets to brighten the workspace. The family room brings in a vertical element with a stacked white stone fireplace that climbs to the ceiling with a modern box oak mantelpiece. The primary suite sits along its own corridor and features upgraded tile selections at the separate tub and shower, 2 individual vanities, and a huge closet that has an exit to the laundry room! Secondary bedrooms are positioned at the front of the home, with one upgraded to a private suite ideal for guests or older family member. Level 3 Coquina quartz surfaces installed in all bathrooms match the pure white Shaker cabinets and brushed nickel contemporary fixture package. Watch sunsets or sunrises on the covered patio which includes a gas stub for outdoor cooking or a firepit! Additional details such as a tankless water heater, 2-inch blinds, outlets installed at TV height, utility cabinets in the laundry, landscaping package with irrigation system, bricked front porch, and full gutters round out the home. Call or visit the nearby Bloomfield Homes model to learn more!
