Move-In Ready

Our Cypress floor plan is an open-concept home with 4 bedrooms and 2 baths on one floor, packed with all the upgrades buyers want and NEED like 8-foot interior and exterior doors, an island kitchen with built-in appliances and extra storage, a study with glass French doors and flexible use, a gas drop to connect a grill or firepit on the covered patio, and tons of extra lighting and electrical! Generous Primary Suite has the best of both worlds in the ensuite bath - a tub and shower with bench seat - plus a plentiful walk-in closet. 3 secondary bedrooms are situated towards the rear of the home, sharing a full bath in the hallway with dual sinks. Large, Low-E windows are strategically placed throughout, flooding each room with natural light that dances off the RevWood floors - a durable laminate plank you'd guess is real thing! Timeless curb appeal thanks to a brick facade complimented by a custom front door, gutters, uplights in the stone-edged flower beds, and a fully landscaped homesite. Creekview Meadows has future amenities planned, including a pool and trails, and is a short drive to 380 (hello H.E.B. grocery store)! Come see this home for yourself, Bloomfield's model is open daily to answer any and all questions.
