The Rose II delivers a confident two-story design with 5 bedrooms and 4 baths in Creekview Meadows. Introduced by an 8' front door, exterior uplighting, full gutters, and a clean, composed curb presence made up of brick and stone. Immediately opens into a light-filled foyer with tall ceilings accentuated by 8' interior doors, a wrapping staircase with modern railing, and laminate wood flooring carrying into the main space. Open to the family room with a two-story ceiling, the kitchen is a beautiful statement piece featuring built-in stainless appliances, a 5-burner gas cooktop, vented wood hood, smooth-wrapped island, deep pot and pan drawers, trash pull-out, under-cabinet lighting, pendant lighting above a large island, upgraded electrical touches, and granite countertops. A private study with double glass French doors just around the corner, easily able to flex as a formal dining, nursery, media or the like. Quiet can be found in the primary suite downstairs, where a peaceful window seat looks out to the backyard, the bath has a separate tub and shower with a seat to fit any preference, and storage abounds in the massive closet! The large game room and media room make up the upstairs living area, surrounded by 3 secondary bedrooms that maintain clear separation from the primary suite below. 2 baths upstairs, including a smart Jack-and-Jill! Practical details are woven throughout, including upgraded carpet in bedrooms, 2-inch faux wood blinds, horizontal open railing overlooking the family room, and a covered patio with a gas drop ready for outdoor cooking.
