Move-In Ready

We're building an all-brick Violet IV that carries its contemporary exterior style seamlessly indoors. The two-story layout includes 5 bedrooms, 4 bathrooms, a game room, media room, and a 2-car garage. The home opens into a light-filled, two-story family room with an open railing above, creating an immediate wow factor! The deluxe kitchen looks on from a smooth-wrapped island with a central sink, quartz countertops, pendant and under-cabinet lighting, a 5-burner gas cooktop beneath a wood vent hood, pull-out drawer for trash or recycling, pot and pan drawers, and a spacious walk-in pantry. Windows frame the covered patio and flood the main living area with natural light, with a window seat at the dining nook. Laminate wood flooring, curated tile selections, 8-foot interior doors, along with an upgraded 8-foot front door and rear patio door enhance the space. The first-floor primary suite offers a private retreat with another window seat, large walk-in closet, and a well-appointed bath. The first of 4 secondary bedrooms is downstairs, with a full bath just outside the door, while the other 3 bedrooms sit spaced out around the upstairs game room, including one with a private ensuite! None of the bedrooms in this home share walls with each other. Additional highlights include 2-inch faux wood blinds, gutters, exterior lighting, a tankless water heater, gas stub-out at the covered patio, and a mud room with laundry at the garage entry. Call or visit the model to learn more about this Violet IV by Bloomfield Homes!
