MODEL HOME • 10032 BLUE FOREST LN | ROSE II

Bloomfield Homes' Rose II offers 5 bedrooms, 4 bath, a private study, media room, and 2-car garage within a thoughtfully designed two-story layout that balances open gathering spaces with well-placed privacy. Hardwood floors extend throughout the first floor and into the primary suite, setting the tone as the home unfolds into a spacious family room where a floor-to-ceiling tile fireplace creates a dramatic architectural statement. Just beyond, the Deluxe Kitchen takes center stage with a smooth wrap design that pairs upgraded quartz countertops with pot and pan drawers and abundant cabinetry that keeps everything within reach without sacrificing style. The primary suite is tucked away on the main level, offering separation from the secondary living spaces and a well-appointed bath with generous storage. A private study near the front of the home provides dedicated workspace, while upstairs, the layout shifts to include additional bedrooms and a media room that's ready for movie nights, game days, or flexible use as needs change over time. Outside, the covered patio with extended flatwork provides additional outdoor living space, perfect for dining or evening conversation. Additional practical features enhance everyday comfort, while carefully selected finishes throughout give the home a polished, cohesive feel from room to room.
