MODEL HOME • 10032 BLUE FOREST LN | ROSE II

The Violet II offers 4 bedrooms, 2 full baths, 1 half bath, and a 2-car garage in a two-story design on an interior lot facing a greenbelt in Woodstone. A covered front porch gives that outlook a place to be enjoyed, with brick paving, an 8-foot front door, and uplights adding definition to the entry. The family room opens dramatically beneath a raised ceiling, where a gas-log fireplace rises in stone to the ceiling and a cedar mantel adds a natural finish. Laminate wood flooring connects the gathering spaces, while the Deluxe Kitchen pairs upgraded quartz counters with a gas cooktop, an electric oven, and an island overlooking the living area. An upgraded tile backsplash and a single-bowl sink sharpen the details, and the pantry keeps storage nearby. The dining area sits beside the kitchen with access to the covered patio and its gas stub. Additional 10-foot by 11-foot paving near the primary bedroom expands the outdoor seating options. On the main floor, the primary suite includes a walk-in closet and a bath with dual sinks, quartz counters, a garden tub, and a separate shower. Tile extends to the shower ceiling, with a rain showerhead adding another upgrade. A study creates a defined space for work or projects, and the powder bath serves the shared areas. The upper level adds a game room and a separate media room, with secondary bedrooms served by another full bath featuring quartz counters and upgraded wall tile to the ceiling. Window coverings, a mud room, gutters, and flat-screen wiring at the fireplace and media room round out the practical features.
