MODEL HOME • 10032 BLUE FOREST LN | ROSE II

The Violet III offers 5 bedrooms, 4 full baths, and a 2-car garage in a two-story layout on a corner lot with a pond view. Brick and stone, dark exterior trim, a covered porch, and an 8' front door establish the look at the entrance. The deepened garage gains 3' of depth, plus a service door and walkway around the home. Wood-look tile carries through the downstairs shared spaces, laundry, and guest bedroom, while raised ceilings lift the family room. The Deluxe Kitchen connects to the dining area, pairing Shaker cabinets with upgraded quartz, a tile backsplash, an island, and a single-bowl stainless steel sink. A gas cooktop, electric oven, and pantry complete the workspace. Black fixtures and a vertical box stair railing add definition to the neutral palette. The downstairs guest bedroom replaces the study and sits beside a full bath upgraded with a standing shower and tile to the ceiling. The primary suite is downstairs, with a walk-in closet and an enlarged shower finished in large-format tile, a decorative accent band, and a recessed shampoo niche. Quartz counters and dual sinks complete the bath. Upstairs, three bedrooms and two full baths surround a game room overlooking the family room; quartz counters and ceiling-height bath tile continue the finish details. Upper laundry cabinets, window coverings, and a tankless water heater add everyday function. An 8' glass patio door opens to the covered patio, where a gas stub is ready for an outdoor cooking setup.
