MODEL HOME • 10032 BLUE FOREST LN | ROSE II

The Violet IV offers 5 bedrooms, 4 full baths, and a 2-car garage in a two-story design on an interior lot in Woodstone. Game night or movie night? Upstairs has room for both, with a game room overlooking the family room and a separate media room tucked alongside it. This level also holds 3 bedrooms and 2 full baths, keeping recreation and secondary rooms together. Downstairs, high ceilings give the family room its dramatic scale, while a gas-log fireplace pairs floor-to-ceiling tile with a cedar mantel. Upgraded laminate wood flooring connects the main shared areas, and window seats add another place to pause. The Deluxe Kitchen stays open to the family room and dining area, with an island anchoring the layout. Upgraded quartz counters, a gas cooktop, and a separate electric oven bring style and function to the cooking space; a walk-in pantry keeps supplies close. The dining area opens to a covered patio with a gas stub for an outdoor cooking setup. At the rear of the home, the primary suite has a generous walk-in closet and a bath with dual sinks, a garden tub, and a separate shower. Upgraded quartz continues through the bathrooms. A second downstairs bedroom sits near the entry with a full bath nearby, giving the plan another distinct space. The covered front porch and 8-foot front door establish the entry, with exterior lighting adding definition after dark. Window coverings, gutters, and a mud room cover the practical side.
