MODEL HOME • 10032 BLUE FOREST LN | ROSE II

Facing a private greenspace, this Violet IV by Bloomfield Homes pairs an interior homesite in Woodstone with a two-story layout offering 5 bedrooms, 4 full baths, and a 2-car garage. The covered front porch, upgraded 8' front door, and exterior lighting introduce a home with a strong focal point inside: a gas-log fireplace finished in tile all the way to the ceiling and topped with a cedar mantel. Upgraded laminate wood flooring connects the shared spaces, where the family room opens to the kitchen and dining area without losing definition. The Deluxe Kitchen combines upgraded quartz counters with an island, gas cooktop, and electric oven, keeping cooking and conversation in the same setting. A window seat adds character to the dining area, and its patio door brings the covered outdoor space into the daily flow. The patio includes a gas stub for a grill, with another door connecting it to the primary bedroom. Located downstairs toward the back, the primary suite includes a walk-in closet and a bath with dual sinks, a garden tub, and a separate shower; upgraded quartz continues here and throughout the home's baths. Near the foyer, a secondary bedroom and full bath give overnight stays their own setting. Upstairs changes the pace with a game room and separate media room, plus 3 secondary bedrooms and 2 full baths. A laundry room and mud room help organize the garage entry, and window coverings are already included. Visit Bloomfield Homes' Woodstone model today!
