This amazing Magnolia III offers 5 bedrooms, 4 bath, plus a powder room in a thoughtfully designed two-story layout set on a spacious HALF-ACRE oversized lot, blending refined finishes with a floor plan that balances privacy and connection. The full brick exterior with a balcony makes a strong first impression, enhanced by lighting, cedar garage doors on the side-entry 3-car garage, and an 8' front door at a sizeable front porch. Laminate wood flooring carries through the main living areas, creating a seamless flow from the entry to the family room where a dramatic tile fireplace rises to the ceiling. The deluxe kitchen is positioned to stay engaged, featuring double ovens, a 5-burner cooktop with deep pot and pan drawers below, stained glazed cabinetry, quartz countertops, and coordinating tile backsplash. Individual formal dining and breakfast areas give you options when entertaining, and a private study sits just off the foyer behind glass French doors. Your Owner's Retreat is tucked away with a massive closet, individual vanities, tub, bench-seat shower, and beautiful tile selections to top it off! And upstairs has an 'In-Law' Suite featuring its own bath, walk-in closet, and direct access to a covered balcony, creating a distinct and special space. 3 additional secondary bedrooms, a hall bath with a dual sink vanity, and a generously sized game room complete the upper level. Practical features like a large laundry with a 5' mudroom cabinet and upper cabinets added, upgraded 8' interior doors on the first floor, tankless-ready gas plumbing, gutters, blinds, and low-E windows round out the home's thoughtful design.
