This home is our popular Magnolia II plan on a huge, pie-shaped lot that comes with a massive backyard and 3 covered outdoor spaces! A broad range of multi-use rooms are arranged among 4 bedrooms and 3 full baths, plus a powder room. A covered front porch makes way into an open foyer with glass French doors to a study on one side and a natural formal dining room opposite. An elongated media room attaches to a huge game room upstairs, great for a home theatre or workout room! Upgrades in the Deluxe Kitchen enhance the cooking experience like added storage for pots and pans beneath a 5-burner gas cooktop, built-in double ovens and microwave tower, effortless granite countertops, and a wood vent hood. Barstools would go perfectly under the island, and the adjacent breakfast nook offers another spot for casual dining. The primary suite is the only bedroom on the first floor, placed in a convenient spot with views of the backyard from a window seat and endless walk-in closet! Enjoy 2 individual vanities in the lux ensuite bath, separated by a soaking tub next to a bench-seat shower. Another bedroom on the second floor has a private ensuite bath, while the other 2 share a dual-sink bath. Lots of storage on both floors including large bedroom closets, storage closets, built-in window shelves, and a mud room with utility connects. Beyond the .37-acre homesite, gorgeous curb appeal comes from an interesting brick and stone facade with a balcony (access from the game room), full landscaping package, gutters, an 8' custom front door, and a stained wood garage door. Come by Bloomfield at The Oaks to take a tour of the home and community amenities!
