**Contact Community Manager for incentives!** The Rose II is a spacious 5 bedroom, 4 bathroom two-story home with a 3-car garage —perfectly placed on a homesite with a peaceful view of the park. From the moment you arrive, the brick and stone front elevation gives a timeless and elegant look, while the 8' front door welcomes you into an open-concept layout designed for both daily living and entertaining. At the heart of the home is a Deluxe Kitchen that any chef will love—featuring double ovens, a 5-burner gas cooktop, a white apron-front farmhouse sink, and upgraded pendant lighting over a large island. Quartz countertops carry throughout the kitchen and all bathrooms for a sleek, polished finish. The kitchen flows directly into the Family Room, where a gas log fireplace creates a cozy focal point beneath vaulted ceilings that add space and light. On the first floor, you'll find durable wood-look tile flooring in all the main areas, plus smart additions like a mud room off the garage and charming window seats throughout the home. With 5 total bedrooms, including a guest suite on the main level, there's room for everyone to have their space. Outdoor living is just as inviting, with a covered porch and covered back patio, both featuring built-in lighting so you can enjoy the space day or night. Other highlights include natural gas heat, a tankless gas water heater, and energy-conscious design throughout. Plus, you'll enjoy access to a community swimming pool and five nearby parks, making this a perfect location for an active and connected lifestyle. Come experience the comfort, style, and smart design of the Rose II—only from Bloomfield Homes. Schedule your visit at The Oaks in Red Oak today to learn more!
