Under Contract

**Contact Community Manager for incentives!** Two-story with 4 bedrooms and 4 baths, the Spring Cress II is a plan that gives you a little of everything! A crisp white brick and stone exterior paired with cedar garage door and a swing-style garage delivers a clean, modern profile. Headline features include a two-story family room, upgraded wood flooring throughout presentation spaces, and a fireplace finished in Deco tile that delivers a bit of personality. The kitchen is arranged for real use with a center island workspace that has room for barstools, quartz countertops, painted cabinetry, a wood vent hood, apron-front farm sink, double ovens, and a 5-burner gas cooktop, plus pot and pan drawers and a walk-in pantry that keep essentials organized and accessible. 2 bedrooms on the first floor include the primary suite with a well-proportioned bath, and upstairs delivers a game room and media room alongside additional bedrooms to support multiple activities under one roof. A dedicated study with glass French doors adds a defined workspace, and a mud room helps manage daily routines. Systems and upgrades such as natural gas heat, tankless gas water heater, low-E windows, and exterior uplights enhance daily life and help lower utility bills. The exterior pairs upgraded white brick and stone with cedar garage doors and a swing-style garage for a quietly distinctive presence on the block. Outside the home, The Oaks community features a pool, playground, trails, greenbelt spaces, and a pond! Visit the Bloomfield Homes model at The Oaks to see the Spring Cress II and experience its thoughtful layout and finishes firsthand.
