A thoughtful combination of stone and brick detailing, paired with a J-swing driveway, gives this home timeless curb appeal and a warm, welcoming presence. Sitting proudly on a spacious corner homesite, it offers one of the largest backyard spaces in the neighborhood—perfect for outdoor entertaining, everyday play, or simply unwinding in peace. Step inside to find a thoughtfully designed single-story layout that lives large. The open-concept floor plan features a split bedroom design, creating privacy for the Primary Suite while keeping the flow between the Kitchen, Dining, and Family Room open and connected. At the heart of the home is a stylish Kitchen with quartz countertops, stainless steel electric appliances, and a walk-in pantry—perfect for everything from quiet breakfasts to lively weekend gatherings. The Family Room centers around a stunning floor-to-ceiling tile fireplace, creating a cozy focal point within the open layout. At the front of the home, a dedicated Study offers the perfect space for working from home, tackling projects, or creating a quiet retreat. All three bedrooms are generously sized, complete with window coverings and well-designed storage. The Primary Suite offers backyard views and includes a spacious walk-in closet, combining comfort and functionality in one relaxing space. Additional highlights include wood flooring, mud room, 8' front door, covered patio, and a 2-car garage with cedar doors.
